

Tesla and 3-6-9

Working With Energy

Nikola Tesla was without question, a genius. He explained how ideas would come to him at a certain time during the night and he would work with them in the platform of Imagination. Once they were ready, he would bring them into his laboratory or workshop as physical creations.

The image is a very, very simply example of how Tesla understood energy, frequencies, vibrations, mathematics.

Lately, the numbers 3, 6, 9 have been focused on as 'magic' because Tesla used them. It has been touted as a way to marry affirmations and those numbers to 'cause' manifestation to happen. It is proposed that you write an affirmation 3 times in the morning, 6 times in the afternoon, and 9 times in the evening. Very simple thinking....

However, the concept of writing your Reality Statement three times in the morning, 6 times in the afternoon, and 9 times in the evening is valuable. Not because of the numbers, but repeating the new through writing and/or speaking will build the fire for the outcome your Reality Statement has claimed.

The way that we use the 3-6-9 in the TAG Galactic System of Healing and Transformation:

- Create your Reality Statement
- Move it through the Reality Shift process
- Use a Brain Balance process to connect the neurons in your brain
- Write the Statement 3x, 6x, and 9x as above observing any changes, or expansions that emerge.
- At least once daily, use the Reality Shift process and Brain Balance on the statement.
